Pharmacy Exchange

The PointClickCare Pharmacy Exchange is an exclusive network of pharmacies throughout North America who have partnered with PointClickCare to bring all of the benefits of an Integrated Medication Management solution to PointClickCare customers.

10,000

long-term & post-acute
care providers will
notice your
services

As a Pharmacy Exchange partner, your pharmacy services get noticed by more than 10,000 long-term and post-acute care providers by integrating with the industry's leading EHR platform.

PointClickCare customers working with Pharmacy Exchange partner pharmacies gain the best-in-class Integrated Medication Management solution, which affordably streamlines medication processes while improving resident safety and compliance.

With Integrated Medication Management, providers can reduce the burden and risk in

managing complex medication regimens. This standards-based solution, which supports the NCPDP standard, combines three components of the PointClickCare EHR platform, which work seamlessly together to provide maximum benefit to a provider's medication administration processes and workflows. Improvements between the PointClickCare electronic Medication

Administration Record (eMAR) and Order Management solutions and your pharmacy dispensing system result in efficiencies during the placement of medication orders and reduces the chances of medication errors.

Participation in the PointClickCare Pharmacy Exchange comes with many benefits to partner pharmacies, including:

PointClickCare Mobile MDS accelerates MDS 3.0 assessment completion. Touch-screen technology, intuitive navigation, and streamlined workflows guide clinical staff through the MDS assessment process. Intelligence in the form of business logic and embedded training tools ensure that assessments are completed free from error.
