

Manage, Optimize and Personalize Each Patient Journey.

With the largest collection of post-acute care insights in North America.

As an acute-care provider you are looking for:

- Confidence when transitioning your patients to your LTPAC partners
- A view into the health status and location of your patients post-discharge
- Efficient and scalable staffing to manage patient population growth
- Reliable, real-time insights proving your LTPAC partners are achieving outcomes that reduce your risk

97%

U.S. hospitals discharge patients to skilled nursing facilities that use PointClickCare

Harmony by PointClickCare gives you unprecedented access to the largest collection of post-acute care insights in North America – through the system most post-acute care partners already trust.

Harmony gives you the tools to:

Expedite the process of information and data exchange between facilities resulting in better transitions and coordination of care

Improve patient throughput by eliminating the red tape and paperwork

Monitor the care pathway with real-time data and information

Manage your risk with the data and tools that improve efficiency and transparency
