Participants will be able to define variable per-diem under PDPM</li> </ul> </li> <li>7. MDS Updates for October 1, 2019               <ul style="list-style-type: none"> <li>a. Participants will be able to identify 3 changes to Section GG</li> <li>b. Participants will be able to identify 3 changes to Section GG</li> <li>c. Participants will be able to identify the new assessments under PDPM</li> </ul> </li> </ul>

## Session Outline

This is not your ordinary PDPM session! You will learn the following:

- How the 6 components of PDPM function in an interactive and engaging setting
- How to make PDPM a success in your organization with real-life solutions such as understanding the intricacies of diagnosis coding under PDPM (plus strategies and tactics to begin now!)
- How to perform a review and audit of current primary diagnosis codes so you understand whether your codes are the correct specificity, what clinical category the diagnosis maps to, and if any primary diagnosis are on the Return to Provider (RTP) list
- How this new payment model is turning therapy upside down so you can walk away feeling ready for the therapy changes and don't end up on the wrong side of an audit

**Speaker:** [Jennifer Leatherbarrow RN BSN RAC-CT IPCO QCP CIC](#)

As the Manager of Clinical Consulting at Richter Healthcare Consultants, Jennifer works with LTPAC clients across the country to offer best practice solutions to everyday operational challenges. With 20+ years of experience in the industry, she is a passionate speaker, and an avid proponent of healthcare employee education. After her sessions, attendees leave with the knowledge and tools they need to succeed through PDPM.
