Session Outline – PDPM for Leaders: A Journey to Success

Presented by: Fran Walker, Director – Market Insights, PointClickCare

The only constant in healthcare is change – and here we go again with the new Patient-Driven Payment Model (PDPM). PDPM is more than just a reimbursement shift. It’s a paradigm shift in how we look at and care for residents, and will require an operational and cultural transformation.

We believe that PDPM should be approached as a journey. One that requires a clear and concise plan that focuses on standardizing processes, leveraging data analysis, and optimizing results.

How do you know if your organization is moving in the right direction? This session is designed for LTPAC leaders that need to know the right questions to ask to make sure their journey through PDPM is a smooth one.

By the end of this session, attendees will:

1. Articulate the changes affecting facilities under PDPM
2. Understand the elements of a comprehensive change management plan for PDPM at the facility level
3. Know what questions to ask when determining if their facilities are prepared for the upcoming changes
